4. Keeping records of investment instruments

The fee is calculated on a daily basis and it is charged monthly. The calculation of the fee is based on the total value of investment instruments recorded as at the end of the day. The total value is calculated from the market price and in case of bonds and non-listed investment instruments and unit certificates the total value is calculated from the nominal value. In case of foreign shares registered in CSDP (via CSDP's account in Clearstream) the total value is calculated from the market price or from the default price (if the market price is lower than the default value, the market price is represented by the default value). The convention applied to the calculation is actual/360.

Market / Type of investment instrument	Nominee account	Individual account
Czech Republic / Listed shares	fee according to the CSDP Price List + 20 %	
Czech Republic / Non-listed shares and investment certificates CMF	fee according to the CSDP Price List + 20 %
